Works well in a team.

Strong analytical and problem-solving skills.

Result-oriented.

Proficient in English with good understanding of technical literature.

Knowledgeable in software architectures, clean code, and design patterns.

Willing to relocate: Anywhere

Work Experience

Senior Software Engineer

LC Waikiki-Istanbul

March 2021 to April 2024

I actively participated in the process of migrating an API gateway project written in Java to .Net Core. I developed, configured, analyzed, installed, tested and deployed a language translation library for use in projects under LC Waikiki Ecommerce. I actively participated in the development, configuration, analysis, installation, testing and deployment of the company's marketplace project. I also actively participated in the development, configuration, analysis, installation, testing and deployment of the gateway project required for LCW Marketplace.

Technologies, languages, and frameworks I have used:

.Net 6, ASP.NET Core, ASP.NET Webform, Angular, Entity Framework, Bootstrap, HTML, CSS, Javascript, MSSQL, MongoDB, Docker, Kafka, RabbitMQ, Redis, Kubernetes, Rancher

Software Engineer Team Lead

Doğan Hukuk-İstanbul

July 2020 to March 2021

I was involved in the development and maintenance of various applications and integrations within the company, as well as the conversion of php applications to .net core and angular. I developed services using .Net Core for integrations. I developed a new application using Angular 11 and .Net 5.

Technologies, languages, and frameworks I have used: ASP.NET Core, Angular, Entity Framework, Bootstrap, HTML, CSS, Javascript, MSSQL.

Senior Software Engineer

EnCazip-İstanbul

May 2020 to July 2020

I was involved in the development of the EnCazip - Online Electric Tariff Comparison: I participated in the integration of E-signature and mobile signature, and the development of the web application.

Technologies, languages, and frameworks I have used: Asp. NET MVC, Entity Framework, Bootstrap, HTML, CSS, Javascript, MSSQL.

Software Engineer Team Lead

Atlas-İstanbul

December 2019 to May 2020

I participated in the development and maintenance of the Metroturizm and BiletPlaza: web application where customers can book tickets for travel.

Technologies, languages, and frameworks I have used: ASP.NET Core MVC, ASP.NET MVC, EF Core, Vuejs, Angularjs, HTML, CSS, Javascript, MSSQL, Oracle , Teamcity (CI).

Digital Infrastructure Developer

Burgan Bank-İstanbul

October 2018 to November 2019

I participated in the development and maintenance of the Burgan Bank Internet Banking: A web application where Burgan Bank customers, both individual and corporate, can perform their bank transactions.

Technologies, languages, and frameworks I have used: Angular, Typescript, .NET Core, EF Core, Bootstrap, HTML, CSS, Javascript, MSSQL, RabbitMQ

Software Developer

SinemaTV-İstanbul

June 2016 to October 2018

I have taken on the role of "Software Development Expert" within the Software Department.

Filbox CRM:

The Filbox CRM application is used for customer, dealer, device, and Filbox Hemen customer management.

Technologies, languages, and frameworks I have used: ASP.NET MVC (C#), ADO.NET, SignalR, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Metronic (Theme), SQL Server Reporting Services, Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation)

Filbox Operation:

This web application is used for managing Filbox operations such as finance, cargo, marketing, etc.

Technologies, languages, and frameworks I have used: ASP.NET MVC (C#), ADO.NET, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Metronic (Theme), SQL Server Reporting Services, Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation).

Filbox Hemen (filboxhemen.com.tr):

Filbox Hemen is an online series and movie streaming application.

Technologies, languages, and frameworks I have used: ASP.NET MVC (C#), WEB API 2, WCF Web Service, ADO.NET, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation).

Filbox - HD Digital Satellite Platform (filbox.com.tr):

Filbox.com.tr is a promotional portal for our satellite platform, and a web application where customers can manage their subscriptions.

Technologies, languages, and frameworks I have used: ASP.NET MVC (C#), WEB API 2, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, SQL Server Reporting Services, Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation).

SinemaTV:

Our corporate web application that is commonly used by SinemaTV websites. All Sinematv sites run on the same application with different domain names.

Technology, Language and Frameworks used: ASP.NET MVC(C#), WEB API 2, ADO.NET, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Teamcity (Continuous Integration), Sandcastle (Documentation)

Websites:

<http://www.sinematv.com.tr>

<http://www.sinematv2.com.tr>

<http://www.sinematvaile.com.tr>

<http://1001.sinematv.com.tr>

<http://aksiyon.sinematv.com.tr>

<http://komedi.sinematv.com.tr>

Fil TV (filtv.tv):

I developed the corporate website for Fil TV channel. The project initially started as a shared project with SinemaTV, but later on it was specialized for Fil TV and I had to create a different web application for it.

Technology, language, and frameworks used: ASP.NET MVC (C#), WEB API 2, ADO.NET, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Teamcity (Continuous Integration), Sandcastle (Documentation)

Risus - Content Management Panel:

Risus is a web application where the content (series, films) contract and broadcast management of SinemaTV sites are managed. Additionally, the content management of the websites sinematv.com.tr, filbox.com.tr, filboxhemen.com.tr, and filt看.tv are also done from within this web application.

Technologies, Languages, and Frameworks Used: ASP.NET MVC(C#), WEB API 2, Entity Framework, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Metronic (Theme), SQL Server Reporting Services, Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation)

Vakana - Request Management Application:

A web application that we developed for tracking and coordinating internal company requests.

Technology, languages and frameworks used: ASP.NET MVC(C#), WEB API 2, Entity Framework, JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Metronic (Theme), Windows Services, Teamcity (Continuous Integration), Sandcastle (Documentation)

Software Developer

Ulusal Yönetim Danışmanlık-İstanbul

January 2015 to June 2016

As a "Software Developer" in the Information Technology Department, I took on a role in the Freight Forwarder Management System project. I took active role in the development, configuration, analysis, installation, testing, and implementation processes in the management modules.

LJK - Freight Forwarder Management System:

It is a web application that enables Freight Forwarders to manage their operations.

Technology, Methodology, Language and Frameworks used: ASP.NET MVC (C#), Entity Framework (Code First), JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, Metronic (Theme), Test Driven Development, Teamcity (Continuous Integration), Sandcastle (Documentation), Windows Services.

Software Developer

Kismet Tekstil-İstanbul

August 2014 to January 2015

In the IT Department, I worked as a "Software Developer". I developed "kismettekstil.com", a website where the company can showcase their catalog, store and fair promotions. Afterwards, I developed "kismetwebstore.com", a website where customers can only review private catalogs.

Kismet Textile Web Store (kismetwebstore.com): A B2B web application where Kismet Textile shows new products to their dealers.

Kismet Textile Corporate Website (kismetteskil.com): A corporate web application where Kismet Textile shares product and fair information. It has an administration panel.

Technologies, Language and Frameworks used: ASP.NET MVC(C#), Entity Framework (Code First), JQuery, Bootstrap, HTML, CSS, Javascript, MSSQL, WCF Web Service

Software Developer

camurunleri.com-Denizli

September 2012 to February 2013

Technology, Methodology, Language and Frameworks used: HTML, CSS, Javascript, JQuery

Freelance
